

Hello,

We ensure pipeline
asset integrity and
compliance,
Economically.

YOUR FOCUS

01

Profitability

we help safely optimize
projects to realize results

02

Reliability

we make risk-informed
recommendations to reduce
failures and fines

OUR SOLUTIONS

01

Integrity Management

we keep up with compliance
regulations so you don't have to

02

Operational Optimization

we excel at evaluating and
pitching favorable projects

TRANSFORMATION

From an unprotected, risky
operation to assured asset
integrity confidence that is
economic!

ABOUT US

We understand your company's objective to transport energy safely and profitable. As a former pipeline operator, we understand the time to remain compliant with new regulations and that's why we are engineering risk-informed solutions to help operators safely optimize their ROI: Return on INTEGRITY.

"Cassandra was
professional, very
responsive, and
positive/courteous to
engage with
